

## Proceed Archiving Service: Making expert archiving part of the day-to-day driving long term benefits

Fully managed service provided by our team of SAP archiving consultants.

### Proceed Archiving Service options

Whether you are archiving in-house, via an SI or not at all, Proceed Group can help you optimise your archiving activities for the best results. Our service is available in different modules to accommodate your specific scenario.

#### Archiving support

- Dedicated helpdesk to support archiving related queries including issues with the archiving process or retrieving data from the archive
- Includes a regular archiving health check to track archiving effectiveness

#### Day-to-day archiving

- We run your archiving on your behalf. This includes the execution of archive runs, variant resolution and successful completion of all jobs
- Monthly reporting tracking KPI's to measure impact of archiving

#### Growth management

- Focus on continued improvements by pro-actively identifying opportunities for archiving - especially important to accommodate business changes
- Value-add possibilities are implemented and forms part of the ongoing archiving

#### Reporting service

- Access to archived data is crucial to support business and regulatory requirements
- Our reporting extension allows for the creation of bespoke reports direct from the archive to deal with both external and internal requests using a consumption based model

### Key Stats

Limit database growth to **less than 2%** vs standard **15-20% increase**

12,500TB storage space **saved** for archiving customers

### What our customers say

"Proceed has provided excellent support for all our current and new archiving, as well as engaged with consultants for issues and to provide knowledge transfer. The team has been responsive and very reliable." - David Gregg, Head of SAP Systems, IS Consultant, Maple Leaf Food
