UKISUG

Please describe your volunteer role with the User Group or your experience of the UKISUG
I have been active with the UKISUG for the last 4 years, presenting at several UKISUG Conferences, recording a podcast and I am also an active member of the UKISUG Executive Forum. I have also been involved with other SAP User Groups: I was invited to present at the Belgium SAP User Group in 2022 and I have also been involved with the US SAP User Group, working on the organisation and agenda of a User Group Conference in Phoenix (Arizona) in 2023 as well as taking part in a Cloud panel discussion at the conference in Phoenix.

Why do you want to serve as a Director of UKISUG?
I have been really inspired by the work carried out by the UKISUG over the last few years and realise how much help and the organisation and the community has provided me in my SAP journey. I am also a very active reference for SAP as I really enjoy the discussion and coaching of other SAP customers in their journeys towards Cloud solutions and navigating the SAP organisation and product portfolio (and commercial complexities). I have earned respect and credibility as an SAP Cloud expert and SAP customer (both within SAP itself and the wider SAP community) and feel it is time to share and contribute in a more structured manner. I would now like to get more involved with the UKISUG by joining the Board. I believe that I have a lot to offer to the UKISUG User Group, bringing a wealth of experience (very early adopter of Rise with SAP and instrumental in shaping the SAP offering), an expertise of the Automotive Industry and a keen understanding of Finance and Finance Systems.

What appropriate experience can you bring to UKISUG and its Board of Directors? (E.g. governance, professional capabilities, financial control, membership organisations, etc.)
Automotive Industry expertise Finance and Finance Systems experience Global involvement within the of SAP community (I regularly work with SAP and SAP Partners in different parts of the world) and have even been involved with other SAP User Groups across the world (I am trilingual English / French / Spanish)
