HOW WE DO IT

The Xactitud team provides optimization services across the entire SAP solution stack. Our approach aligns with the SAP Activate methodology, enabling us to seamlessly work with customers and SAP implementation partners.

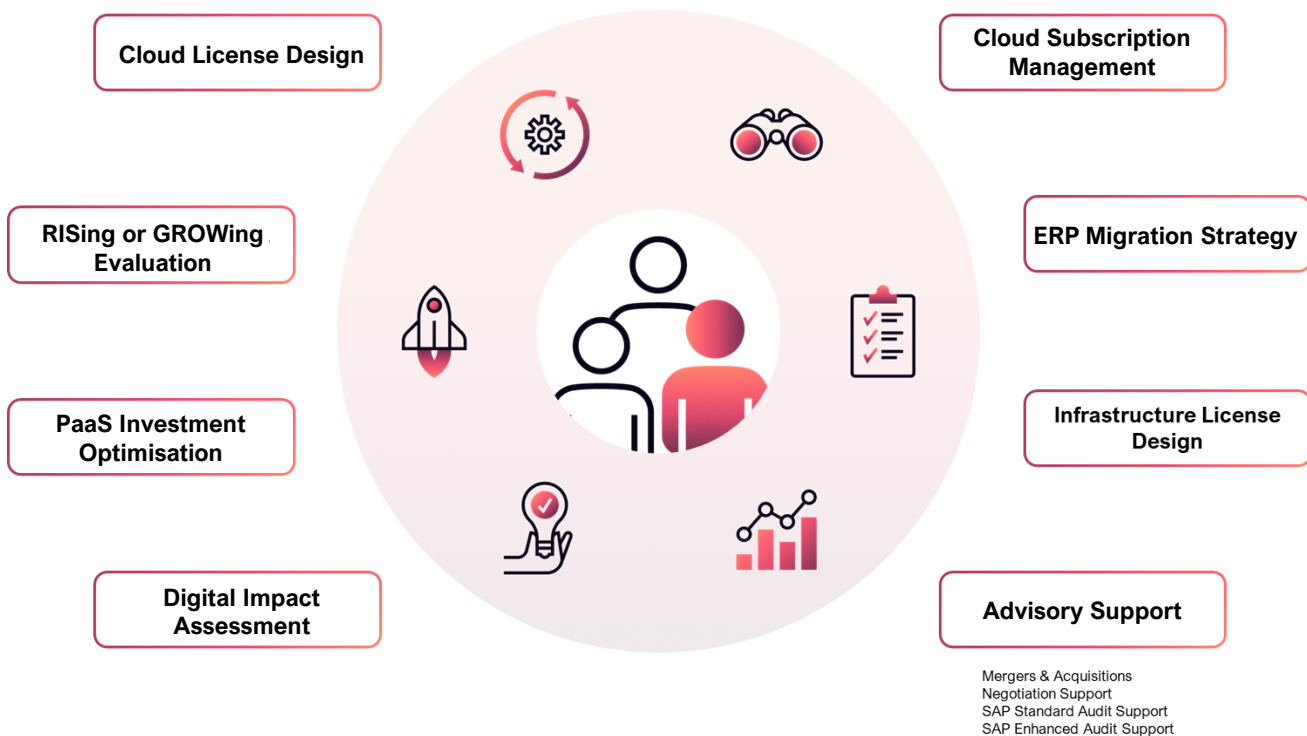

WHO WE WORK WITH

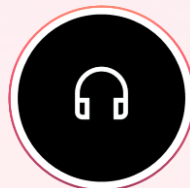

What all SAP customers we support have in common is that they are all doing at least one of the following:

- Squeezing value out of their existing SAP licenses or right-sizing new requirements.
- Embarking on an SAP transformation project.
- Seeking licensing clarity and transparency.

Xactitud offers SAP customers modular licensing solutions based on their specific requirements, underpinned by the SAP Activate methodology.
